**Subject:** Re: Haystack - Percolation test

Good morning Ali:

I spoke to both **Ex. 6 Personal Privacy (PP)** and they both informed me that there are no water or under ground utility lines where the two new homesites are located. NTUA has a Call Before You Dig-1-800-528-5011.

They were also informed that Iina Baa will be on site Thursday, March 26, 2020 and I told them no interactions for their safety. They understood.

As Mr. Whaley said work must continue for the **Ex. 6 Personal Privacy (PP)**

If you have any questions please let me know.

Vivian

**Subject:** Haystack - Percolation test

Good morning Vivian,

Per our agency call last week, we would like to continue with the percolation test at the [Ex. 6 Personal Privacy (PP)] new homesite locations. Can you please inform the [Ex. 6 Personal Privacy (PP)] that we would like to perform the tests this Thursday, the 26<sup>th</sup>? In addition, can you please confirm with [Ex. 6 Personal Privacy (PP)] that, to the best of his knowledge, there are no known underground utilities in the area of the new homesite leases? We have also done a visual survey/mapping of known utilities and will call One Call (or equivalent for NM) but would like to know, based on his historical knowledge of the area, if he believes there are any utilities in those areas.

As a reminder, when performing the percolation tests, lina Ba will remain at least 6 feet away from the [Ex. 6 Personal Privacy (PP)] and will not approach them due to social distancing (including NOT shaking hands should they happen to see them). No one will be flying in for the work (no Arcadis oversight) and the minimum number of people will be onsite to conduct the work. If you have any concerns of the work being performed, please let us know.

Thanks  
Ali
